### PRESIDENTS CORNER

Hi, How are you doing? Hope you had as good a time, at the picnic as I did. I thought it was fantastic!

SPECIAL THANKS TO:

JIM ORR & his son, the BBQ was FANTASTIC!!!

BETTE EDWARDS, for being sooo organized, she is a true lifesaver!!!

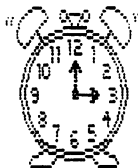

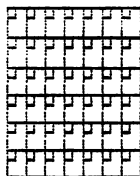

The dishes people brought in were delicious! (of course I had to sample all of them???). I am sorry about the games that we were suppose to do (potato sack race, balloon toss) I was going to do them after the meeting, then I started to get the drifting smell of the BBQ, plus I was real busy (gabbing??) aaaaaahh visiting, anywayyyys I forgot ....ooops.

ELLEN MONTGOMERY & STAN SPURGEON were the winners of the free disk pack door prize drawing & my son BILLY TRISLER was the winner of the free game disk of his choice, from the computer games contest. CONGRATULATIONS TO ALL THE WINNERS & PARTICIPATERS !!!!!!!

T-SHIRTS & HATS-are due in this meeting, For those that ordered at the meeting. Garry & I seemed to of crossed our wires some how & the T-SHIRT FORM that was to be in last months (AUG.) newsletter, will be in this months (SEPT.) newsletter. Due to the cross up I had to make up the difference, in the minimum order(12). So, if you wear LARGE or EXTRA LARGE(XL), I will have a couple extra at the meeting. I will

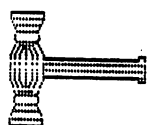

### SEPTEMBER Calendar Events

- 11 - CUGOS Meeting (10am at House of Prayer, 2850 N. Park, in Gym, see map - back page)
- 21 - Officers & Board of Directors Meeting
- 29 - Clipper Newsletter Article Deadline

The CUGOS Meeting meets at 10 am the 2nd Saturday at the House of Prayer, 2850 N. Park Ave.

also have some caps that will be extra, (see the ORDER FORM). Please fill it out & bring it in with you or you can mail it. (please note, the dates) We should have them by the next meeting (OCT.). For those of you out of town, I can make special arrangements for mailing, with the post office, but it does cost extra.

Be proud of your CUGOS, fill out the form, as soon as you finish reading the newsletter, while it is still on your mind, that way it will be ready to go on Saturday!

#### THIS MEETING:

DEMO- by TONY EDWARDS on the Disk Magazine that we purchased awhile back, we will look at it & discuss how we want to release it.

OTHER DISCUSSIONS ON: Future commercial library functions, Need for technical help for simple equipment fix/install problems/options, Review of the "new user folders" & lots of other things to see & do..

HELP !!!!! We need more computers at the meeting for demos! I would also like to start ongoing games for the younger kids (kinda keep them occupied??) that way mom & dad can have a little more time to visit. I am willing to pay CUGOS BUCKS for the use of it at the monthly meetings!! So if you happen to have one, bring it on in, don't worry I wouldn't turn the kids loose, someone would be there to help them out..

If you have a copy of the KOALA PAD DISK, that you are willing to share with the club please bring it in, also GEOS BOOKS & or DOCS we seemed to have lost ours and desperately need them to pair up with our "parts" in the commercial library, as with any other lease for the use we offer CUGO BUCKS. Also interested in CARTRIDGE games/programs (that plug into the back). Just a thought, I'm wondering if there are any CASSETTE TAPE games/programs still out there it would be interesting to see if you

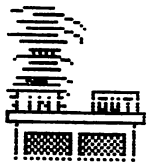

have 'em /share'em !!! COMMERCIAL LIBRARIAN: BETTE STOTT-has mentioned there are interested people for the programs above, if you happen to have these bring them in and share!!!

NEWSLETTER ARTICLES-the news letter is in need of articles, any type HELP section, QUESTIONS/ANSWERS & OPINION, columns, would be greatly appreciated on top of that you would be able to be the only published author on your block??

We will serve hot dogs & hamburgers at the break, with a soda for .50 cents. So there is no need to worry about lunch, come on out & enjoy!

HOPE TO SEE YOU AT THE MEETING!!!!!!

Sincerely,  
Ernie Trisler

#### Minutes Cugo's Meeting August 14, 1993

The regular monthly meeting was held on August 14, 1993 -- 10:00 A.M.... At 2850 N. Park.

President Ernie Trisler welcomed everyone present, and recognized visitors.

Ernie talked about CUGOS Tee Shirts & Cap Project, which will have CUGOS Logo on the back. Orders are being taken for these Shirts & Caps. Shirts \$10.00 Caps \$5.00. The shirts will come in light blue, and are available in all sizes from Small to Jumbo. He asked that prepaid orders be given to the secretary or to himself.

The President called on officers for announcements & reports. Jim Orr gave a treasurers report stating the club was doing well financially. Tony Edwards spoke about the disks that were available in CUGOS Library, and the disks that were being dem'oed today. Bill Patrick gave a progress report on the new

members that had just joined CUGOS. They were Freeman G. Hale, Springfield -- Tony Love, Walnut Grove -- Walter and Barbara Chapman, Humansville -- Lloyd Boothroyd of Stockton. They were given a hearty welcome to the club.

Ernie Trisler announced that the HEAD CHEF, Jim Orr had reminded him that food would be served starting at 11:30 A.M. Hamburgers, Hot Dogs, Potato Salad, Cole Slaw, Baked Beans & Pop were furnished by the club. Salads & Desserts were furnished by club members.

The demo and meeting came to an end at 11:25 and everyone enjoyed a delicious picnic and continued their conversation. Some 65 reservations were made. Door prize winners were E.L. Montgomery & Stan Sturgeon.

Respectfully submitted,

Bill Patrick, Secretary

### CUGOS CLUB TRIVIA

The club was formed around May of 1982, the newsletter was started about a year later. I have obtained a CUGOS newsletter as early as February, 1983 and several in 1984 (Feb. Apr. May & June).

Here's the trivia, you will be given the questions & answers, but you must match them up together (I'll do this each month till we are up to the present year, enjoy! Answers next month)

In 1989-1990 issues:

1. The meeting place was \_\_\_\_
- b. VFW Hall
2. The BBS SYSOP was \_\_\_\_

#### TELECOMMUNICATIONS

I for one think that CUGOS BBS  
"Digital Dimensions" is perhaps the  
best board around town, or in the  
area for that matter!!!

It is easy to move around in, it  
is colorful & informative. There are  
a ton of games, utilities & help  
files online at your 24 hour  
disposal.

Thanks to the tireless efforts  
of SYSOP: LARRY FETTERS, & helpers  
CUGOS now has the perfect "meeting  
place", DIGITAL DIMENSIONS (417-866-  
3979), post conversations or  
messages to one or all, and do it  
from the comfort of your own home!  
Don't worry about what time it is or  
how your dressed, its there ready  
for your use 24 hours a day, 7 days  
a week. You don't even have to be a  
computer wizard to logon the board  
(you do have to have a modem & know  
how to turn the computer on  
however...teehee)

There are several SUBBOARDS  
that offer a lot of information. My  
favorite ones are:

"puter problems"-where you can  
post a plea for help when something  
doesn't seem to be operating quite  
right (or not at all)

"for sale"-is a place to post  
that piece of equipment or program  
that you just had to have & haven't

!!

"other dimensions"-where you would post messages for the other functions of the club.

The UPLOAD/DOWNLOAD section is the best part of the system, it lets you choose from several different drives, so you can find that "just right" section to upload / download the program that you happen to be in the mood for at the time. A note about UPLOADS, Please post a message in the subboard section, that describes your little gem of a program, list the name & what it does. Please don't UPLOAD commercial programs or programs that you know to be faulty, if you are having problems running either of the above, by all means post a message in the appropriate section there could be someone else that has had the same problem?

I could go on & on about the board but I promised I wouldn't get long winded (? what me..carry on & on about something??)

Call the board!! its easy, its entertaining & its cheap!!!!

If you have problems getting on the board check: The MODEM make sure it is hooked to the phone line & seated in the computer firmly: Make sure all of the EXTENSION PHONES, on the same line are on the hook: LINE NOISE would be the most common problem, if it is taking forever to connect to the board. If you have an extension phone (NOTE: cordless phones operate with radio waves, if you have one real close to the computer or any high energy electronics, it could interfere with the sound quality of one or both pieces of equipment, usually when "transmitting"). So listen on a corded phone while the computer is trying to connect (caution: if you make any noise while on the extension, the program will react, as it should to unusually high line noise and abort the connect attempt). If you still can't connect to the board try another board. The host computer maybe offline. If nothing seems to work: RELOAD your terminal program. (who says we live in a perfect world?) I have on occasion, had to reload the program,

is the only reason that I'm mentioning it now. I'm not saying, that was the problem, I'm just saying, as a last resort it seemed to work.

This is just a little article on my views of CUGOS BBS.

I hope that someone else may find them helpful.

If anyone else has a different way or style, Please share it with everyone else, on the board or in the newsletter.

REMEMBER: if each of us shared a little, all of us would gain alot..

I'M OUT HERE !!!

## Brain Twisters

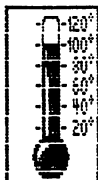

Last months brain twister puzzle  
answer - \$49.99

Next puzzle- Two planes take off  
at the same moment to race to a  
certain point and back. The first  
plane makes 180 miles an hour on the  
way out and 240 miles an hour on the  
return trip. The second plane makes  
the entire round trip at an average  
speed of 210 miles an hour.

Which plane won the race, or was  
it a tie?

## THE COMPUTER PICNIC

The picnic was alright,  
there was four computer games, ONE-  
ARMED BANDIT, POKER, BLACKJACK, and  
OUT RUN. People were competing  
against each other, EVEN THOUGH ONLY  
6 WROTE THERE NAME & GAME & POINTS  
down on the big pad next to the  
computer. This is what the pad  
looked like.

NAME-----GAME-----  
POINTS---

LAURINDA HARDY,	OUT RUN,
862,120	
JEANNEA	OUT RUN,
323,240	
CARY H.	OUT RUN,

The PRIZE was a free disk of  
their choice. After that there was  
suppose to be games like WATER  
BALLOON TOSS, THREE LEGGED RACE,  
POTATO SACK RACE, but somebody  
forgot, I won't say names (MR.  
PRESIDENT). Then everybody started  
eating, The food was GREAT!!!

I WON THE FREE DISK!

SINCERELY,

BILLY TRISLER

"KVERTER.DITHER". It's great, it's Public Domain, it works! But, what is it?

Alice Shipley wrote me to say: "How do you import *KOALA* pics into *FGM*? Our members have not been successful, nor have I."

Well Alice, there is a Santa Claus, and its name is *Kverter*, but let me first mention even easier methods. Before you try any conversion, try printing the Koala as it stands. Many that look awful on screen, print out excellent. This is most pronounced in *Video-Byte* captures which are produced in shades of gray. If this doesn't work, try "Strip Gray". Load your Koala into *FGM* using a filename such as "?pic a filename\*"; go to the creator screen and press <SHIFT> <CTRL> & <G>. When the box appears, press <Y>es. Results should be fast and dramatic. If the results are not to your liking, try moving it over one Pixel or reversing the screen and try again. If still not what you want, . . . enter *Kverter*.

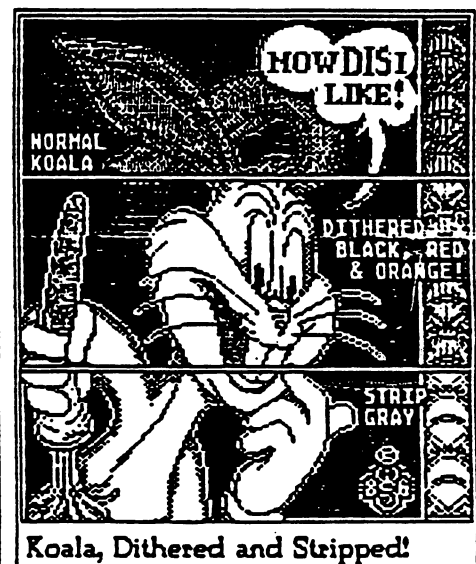

*Kverter* is an "Oldie, but Goodie!". What it does is take each color one-by-one and substitute a pattern of your choice. Eight patterns are available. (If this isn't enough, you may have to revert to a commercial program such as "*Photo Finish*") To use it, LOAD and RUN *Kverter*, then place your Koala disk in when

told and select your screen. Your pic will be displayed with a menu box on the bottom. Select <A> Black first and when your blank screen appears, Select <A> Solid and the screen will automatically dither all the black pixels onto your work screen. <Return> will bring you back to your color picture. If you want more detail, choose another color and select a pattern for it to dither onto your work screen. If you don't like the results, select another pattern, or <B> Clear, and continue. When the B&W work screen is to your liking, you are almost finished.

Pressing <F1> will allow you to save your work, or if you have a Reset Switch on your computer, simply reset and load *FGM*. Your picture will be on at least one of the three *FGM* screens, ready to add text or save as an 8-bit masterpiece. Easy, wasn't it.

*Kverter* has other distinct uses also. If you wish to make greeting cards in color, using the 4-pass method, just follow these easy directions for making your master screens. First make a Black master, as described above. Next use *Kverter* to make a master using the solid or checked patterns for yellow, green and orange colors only. This is your Yellow master. Do the same thing using Blue, Green and Purple colors to make a Blue Master, and Red, Orange, and Purple for the Red Master. Place the proper color ribbon in your printer for

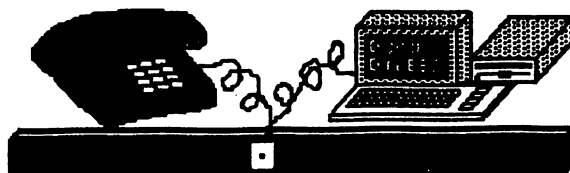

each master, line up you paper, and print. Special colors such as Gold and Silver would of course require a master screen of their own. The *FunGraphics Machine* is still the best method to print out the 4-color process screens!

For those who may have ordered the "FGM Help Disk 1-2" directly from me, and are still having trouble getting started, a "FREE" supplemental disk manual will be sent to you for only \$1 postage & handling. (Others will have to send \$2 plus \$1 postage!) The manual will take you through a disk update and step-by-step through a basic start-up. I will also include support files such as *KVERTER* and some graphic converters. *Kverter* may also be found on the CUSAC Bonus Disk #10 in the CNCN Library, as well as other PD sources. Available on or about February 2, 1992.

Any Users Group hereby has permission to reprint any articles held within this newsletter, as long as it is not stated within the article, "not for reprint". We give credit where credit is due for articles written or reprinted. We expect anyone reprinting these articles to do the same. If you choose, feel free to use an entire page or two from our newsletter. If you do, please give credit to the Clipper for page layouts as well. Even if we have used someone else's article. We are proud of the page layouts as well, and would appreciate credit. We would also appreciate a copy of the newsletter containing the reprint.
